

Global Law Summit Lawyers Inspired to make a Difference

As lawyers gather to celebrate, commemorate and embrace the 800th anniversary of the sealing of Magna Carta lawyers look to the past, build on the present and explore the potential of the future.

In the spirit of abiding by and advocating the Magna Carta principles, lawyers uphold:

“

...to no one deny or delay right or justice...

”

Lawyers thrive on actions, accountability, influence and power to protect the vulnerable, strengthen the weak and lend a voice to those unheard. Therefore, the Global Law Summit, supported by The Law Society of England & Wales call upon speakers, sponsors, delegates and ALL LAWYERS IN THE UK to use this occasion to make a difference and donate to War Child.

War Child

War Child stand proud not only in delivering immediate safe havens to children in war zones, but also in supporting their rights to education and creating sustainable lives free from violence.

There are vulnerable and frightened children in war zones throughout the world, whose rights are severely compromised, who are in desperate need and who face deplorable violence and atrocities. As lawyers we know that no rule of law can ever co-exist with the destruction of children's lives. Therefore on this occasion of celebrating and honouring the principles of Magna Carta, we wholeheartedly give our backing to War Child.
